

PeopleSoft Training: Academic Advisement Release 9.0

Course (3 Days)

The Academic Advisement module determines if students have completed graduation requirements. In this three-day class, participants learn how to set up course lists, requirements, and requirement groups to define the conditions necessary to earn a degree. Degree audit reports will be created allowing students and staff to track satisfaction of requirements. Students can also track their degree progress by using the My Academic Requirements in self-service and run "what-if" reports to see if requirements have been satisfied. The Program Guide represents partial use of Academic Advisement and does not show requirement satisfaction.

- Academic Structure Review
- Viewing What-If Reports in Self-Service
- Grade Categories and GPAs
- Defining Course Lists

Day 2

- Running Reports
